
WHAT TO EXPECT DURING YOUR AIRBRUSH SESSION

1. You will be escorted into a private area equipped with ventilation and drying fans for your session.
2. A technician will discuss your sunless tanning needs and help you choose the perfect shade that is right for your skin tone and desired result.
3. You will remove your clothing and jewelry.

WOMEN: If you choose to wear cotton undergarments the solution will not penetrate through the clothing. Therefore you will not receive a tan in the covered areas.

MEN: It is required that cotton briefs, shorts or a bathing suit be worn for the session.

4. If your finger and toe nails are not painted our technician will provide a lotion to cover your nail beds.
5. Cover your hair with the supplied disposable hair cap.
6. A technician will then apply your chosen solution to your skin, covering your entire body. They will guide you in several positions to ensure that all exposed areas are covered evenly.

NOTE: APPLYING EXCESSIVE SOLUTION DURING ONE SESSION WILL NOT MAKE YOU DARKER. YOUR SKIN MAY APPEAR DARKER DIRECTLY AFTER YOUR SESSION BUT WILL WASH OFF DURING YOUR FIRST SHOWER.

If a darker tan is desired a second application can be applied 24 hours after the first session.
